ABOUT DIGISOFT™

WHAT IS DIGISOFT™?

DIGISOFT™ is the next generation digital print technology the world has been waiting for. Engineered to deliver exceptionally high-quality prints on even the toughest fabrics, DIGISOFT™ is on-demand printing as it was always intended. *Fully* evolved.

DIGISOFT™ empowers you to create apparel products as inspiring as your ideas. Think limitless design freedom, real durability, & creativity unbounded from traditional constraints. With DIGISOFT™ you're in-control like never before.

Equal parts DTG (Direct-to-Garment) & DTF (Direct-to-Film) print processes, DIGISOFT™ combines the best qualities of each without their limitations. The result is a ground breaking product that's visually-stunning, impossibly durable, surprisingly versatile, & objectively superior to the competition — delivered at a speed today's world demands.

DIGISOFT™ prints are known for a sharp, consistent, true-to-color look with a soft, wearable feel, & impressive longevity on any fabric.

Welcome to the new standard for custom on-demand apparel printing.

THE WORLD'S MOST ADVANCED ON-DEMAND APPAREL PRINTS

ABOUT DIGISOFT™

PRINT ATTRIBUTES

Trademark DIGISOFT™ prints characteristics:

ULTRA VIVID

DIGISOFT™ prints pop with a vibrancy unparalleled in the print on demand world.

PRECISION DETAIL

Bring your designs to life with laser precision - down to the very last pixel.

SOFT HAND

No matter the product, every print is lightweight, comfortable, & smooth to the touch.

LONG LASTING

Whether it's a debut outfit or a well-worn favorite, your print will stand the test of time.

IMPACT DURABLE

Elevate your catalog with strong & flexible prints that won't crack or fade with aggressive wear.

CLEAN FINISH

DIGISOFT™ technology delivers crisp & clean prints with eye-catching clarity - every time.
