LIMITLESS DESIGN POTENTIAL

Performance apparel has officially entered the modern age. Say goodbye to design limitations & color restrictions. No more minimum orders or slow turnaround times. Exclusively at CustomCat, you can finally design & create your own custom activewear apparel without limitation. You can now achieve full spectrum high-definition digital prints – every time.

/// FEATURES ///

IMPOSSIBLY DURABLE PRINTS

Eye-catching apparel prints are no longer reserved for gentle play. Strong, durable, & vibrant digital prints are here to stay – even under the most extreme conditions. Whether you're walking into your first day of practice or suiting up for the championship game, your Digisoft print is sure to outlast the competition.

/// FEATURES ///

UNRIVALED RESULTS

Print vivid, full-color digital prints on synthetic performance fabrics with ultra-clear digital imagery. You can achieve on-demand activewear prints that are crisp, clean, & true-to-design time & time again. It doesn't matter if you need 1 or 1000, your designs will come alive on your custom apparel products – exactly the way you envisioned them.

FEATURING

DIGISOFT™

Performance Printing Technology

DIGISOFT™ is the next generation digital print technology the world has been waiting for. Engineered to deliver exceptionally high-quality prints on even the toughest fabrics, DIGISOFT™ is on-demand printing as it was always intended. Fully evolved.

DIGISOFT™ empowers you to create apparel products as inspiring as your ideas. Think limitless design freedom, real durability, & creativity unbounded from traditional constraints. With DIGISOFT™ you're in control like never before.

Equal parts DTG (Direct-to-Garment) & DTF (Direct-to-Film) print processes, DIGISOFT™ combines the best qualities of each without their limitations. The result is a ground-breaking product that's visually-stunning, impossibly durable, surprisingly versatile, & objectively superior to the competition — delivered at a speed today's world demands.

DIGISOFT™ prints are known for a sharp, consistent, true-to-color look with a soft, wearable feel, & impressive longevity on any fabric.

Welcome to the new standard for custom on-demand apparel printing.

DIGISOFT™ was developed to resolve issues that are all too common in DTG printing (inconsistent color, high error rates, garment fabric limitations, & poor print longevity), so it's no surprise it substantially outperforms DTG in all categories.

The problems with DTG technology are well-known throughout the POD community. Despite being an inexpensive option, DTG offers inconsistent print accuracy, limited versatility, poor print consistency, & disappointing print longevity.
