- ✓ **Hundreds of Hoodie & Sweatshirt SKUs to choose from**
- ✓ **Lightning fast print-on-demand fulfillment from Detroit, MI**

→ *Create your FREE CustomCat account today to get started!*

/// FEATURES ///

VIBRANT FULL-COLOR PRINTS

We're using DIGISOFT™ to unlock vivid & long-lasting color on every last garment. Say goodbye to the days of blurry prints, muddy colors, & inconsistency on POD t-shirts. You can now achieve hoodies & sweatshirts with bright, vibrant colors that showcase the true beauty of your designs. Sell with confidence, knowing your customers will receive rich, full-color prints every time.

/// FEATURES ///

RETAIL READY QUALITY

Fully evolved print-on-demand tees are finally here. Vibrant colors, precision detail, & true design fidelity – the way POD tees were always meant to be. Exclusively with CustomCat, you can achieve retail-quality prints, with no order minimums. Finally, print quality you can build your brand around.

DTG (left) vs. DIGISOFT™ (right)

/// FEATURES ///

UNRIVALED RESULTS

Our t-shirt prints are second to none – no other on-demand printed t-shirt achieves as much vibrancy, design fidelity, or durability as a CustomCat DIGISOFT™ print. You can choose a company that uses outdated print methods that either produce prints slowly or with mediocre quality & durability, or you can get the results you deserve with CustomCat.

FEATURING

DIGISOFT™

Performance Printing Technology

DIGISOFT™ is the next generation digital print technology the world has been waiting for. Engineered to deliver exceptionally high-quality prints on even the toughest fabrics, DIGISOFT™ is on-demand printing as it was always intended. Fully evolved.

DIGISOFT™ empowers you to create apparel products as inspiring as your ideas. Think limitless design freedom, real durability, & creativity unbounded from traditional constraints. With DIGISOFT™ you're in control like never before.

Equal parts DTG (Direct-to-Garment) & DTF (Direct-to-Film) print processes, DIGISOFT™ combines the best qualities of each without their limitations. The result is a ground-breaking product that's visually-stunning, impossibly durable, surprisingly versatile, & objectively superior to the competition — delivered at a speed today's world demands.

DIGISOFT™ prints are known for a sharp, consistent, true-to-color look with a soft, wearable feel, & impressive longevity on any fabric.

Welcome to the new standard for custom on-demand apparel printing.

—The World's Most Advanced On-Demand Apparel Prints—

Ultra Vibrant | Precision Detail | Made to Last

DTG

Direct-to-Garment

[click image above for detail]

Direct-to-Garment *prints ink directly onto a treated cotton garment. It was designed for mass-producing custom prints, paving the way for on-demand apparel.*

VISUAL APPEAL
8.5/10

PRINT QUALITY
4.5/10

HAND FEEL
5.5/10

SPEED
8.5/10

DURABILITY
4.5/10

The problems with DTG technology are well-known throughout the POD community. Despite being an inexpensive option, DTG offers inconsistent print accuracy, limited versatility, poor print consistency, & disappointing print longevity.

VS.

DIGISOFT™

Performance Printing

[click image above for detail]

DIGISOFT™ *is specially engineered to outperform DTG by delivering exceptionally high-quality printed products, regardless of fabric, material, or design.*

VISUAL APPEAL
9.5/10

PRINT QUALITY
9.7/10

HAND FEEL
9.0/10

SPEED
9.0/10

DURABILITY
9.7/10

DIGISOFT™ was developed to resolve issues that are all too common in DTG printing (inconsistent color, high error rates, garment fabric limitations, & poor print longevity), so it's no surprise it substantially outperforms DTG in all categories.
